

AI Usage Card for Project

CORRESPONDENCE(S)

Nirish Samant

CONTACT(S)

nirish.samant@stud.uni-goettingen.de

AFFILIATION(S)

University of Göttingen

PROJECT NAME

DNLP SS26 Final Project

KEY APPLICATION(S)

BART Paraphrase Type Detection

MODEL(S)

ChatGPT
Claude
Grok
Gemini

DATE(S) USED

2026/08/18
2026/08/18
2026/08/18
2026/08/18

VERSION(S)

GPT-5.5
Sonnet 5
Grok 4.5
Gemini 3.6

IDEATION

ChatGPT, Claude, Grok,
Gemini

GENERATING IDEAS, OUTLINES, AND WORKFLOWS

No

IMPROVING EXISTING IDEAS

Yes

FINDING GAPS OR COMPARE ASPECTS OF IDEAS

Yes

LITERATURE REVIEW

ChatGPT

FINDING LITERATURE

No

FINDING EXAMPLES FROM KNOWN LITERATURE

No

ADDING ADDITIONAL LITERATURE FOR EXISTING STATEMENTS AND FACTS

No

COMPARING LITERATURE

Yes

METHODOLOGY

ChatGPT, Claude, Grok,
Gemini

PROPOSING NEW SOLUTIONS TO PROBLEMS

No

FINDING ITERATIVE OPTIMIZATIONS

No

COMPARING RELATED SOLUTIONS

Yes

EXPERIMENTS

ChatGPT

DESIGNING NEW EXPERIMENTS

No

EDITING EXISTING EXPERIMENTS

No

	FINDING, COMPARING, AND AGGREGATING RESULTS Yes	
WRITING ChatGPT	GENERATING NEW TEXT BASED ON INSTRUCTIONS No	ASSISTING IN IMPROVING OWN CONTENT Yes
	PARAPHRASING RELATED WORK No	PUTTING OTHER WORKS IN PERSPECTIVE No
PRESENTATION ChatGPT	GENERATING NEW ARTIFACTS No	IMPROVING THE AESTHETICS OF ARTIFACTS Yes
	FINDING RELATIONS BETWEEN OWN OR RELATED ARTIFACTS No	
CODING ChatGPT, Claude, Grok, Gemini	GENERATING NEW CODE BASED ON DESCRIPTIONS OR EXISTING CODE No	REFACTORING AND OPTIMIZING EXISTING CODE Yes
	COMPARING ASPECTS OF EXISTING CODE Yes	
DATA No	SUGGESTING NEW SOURCES FOR DATA COLLECTION No	CLEANING, NORMALIZING, OR STANDARDIZING DATA No
	FINDING RELATIONS BETWEEN DATA AND COLLECTION METHODS No	

ETHICS

WHAT ARE THE IMPLICATIONS OF USING AI FOR THIS PROJECT?

AI tools were used to support the development and analysis. Their use can improve productivity by assisting with understanding the task and debugging code. However, AI-generated suggestions may contain incorrect, incomplete, or unsuitable information and may introduce methodological biases. Therefore, AI assistance is treated as a supporting tool rather than a replacement for my own implementation, experimentation, and scientific judgment.

WHAT STEPS ARE WE TAKING TO MINIMIZE THE CHANCE OF HARM OR INAPPROPRIATE USE OF AI FOR THIS PROJECT?

AI is used only as an assistance tool solely for the intended NLP research task. I have not used AI to make decisions about individuals or to generate harmful or discriminatory content. AI-generated suggestions are reviewed by me. Inappropriate, biased, or unsupported suggestions are rejected. Project's requirements concerning responsible & transparent AI use by disclosing the use of AI through this AI Usage Card is also being followed.

WHAT STEPS ARE WE TAKING TO MITIGATE ERRORS OF AI FOR THIS PROJECT?

AI-generated suggestions are reviewed and tested before being incorporated into the project. Model performance is evaluated experimentally, rather than relying on AI-generated claims about performance. Results are compared against Part 1 baseline and the the outputs are inspected for errors. Any AI-generated information, or suggestions that cannot be independently verified or that negatively affect the implementation are not used. This ensures that the final methodology and results are supported by my own experiments.

THE CORRESPONDING AUTHORS VERIFY AND AGREE WITH THE MODIFICATIONS OR GENERATIONS OF THEIR USED AI-GENERATED CONTENT

Yes. All AI-generated or AI-assisted content used in the BART paraphrase type detection project has been reviewed and verified.
